Organizing Entity

Breast Cancer in Young Women Foundation (BCYWF)

The Breast Cancer in Young Women (BCYWF) Foundation is a global network of medical professionals, researchers, advocates, survivors, and organizations across 29 countries, united to improve the lives of young women affected by breast cancer and to prevent future cases. Committed to education, research, advocacy, and survivor support, BCYWF offers multilingual resources, including educational materials in 13 languages and bilingual survivor stories in six languages.

The foundation raises targeted awareness and promotes early detection by empowering young women and teens with life-saving knowledge. Through collaboration and compassion, BCYWF aims to create a lasting impact in the fight against breast cancer among younger populations worldwide.

Host Entity

JBCRG (Japan Breast Cancer Research Group)

Japan Breast Cancer Research Group (JBCRG) is a non-profit research organization conducting and coordinating clinical studies with the aim of improving breast cancer treatment.

JBCRG was established by a group of physicians committed to clinical research with the aim of improving treatment and outcomes for patients with breast cancer. It has grown into a national network of breast cancer specialists conducting clinical trials voluntarily in addition to their clinical duties.

We are supported in our activities by nurses, pharmacists, clinical laboratory technicians, clinical research coordinators, and many other professionals. We work together to maintain patient safety and the high quality of our clinical studies.
